Cannabis Awareness

This interactive online training aims to increase awareness, knowledge and provides an opportunity to explore current and emerging trends with psychostimulants. Harm reduction and support strategies will be explored.

Our training attracts attendees from a wide range of sectors and we encourage active participation in our sessions through group discussions and by inviting individuals to offer comments on issues relevant to their role. If you have any concerns about participating within this interactive format please highlight this in the additional needs section of the booking form.

Learning Outcomes

By the end of the session participants will be able to:

- Give an overview of the current trends with cannabis including synthetic cannabinoids.
- Recall the main effects and side effects of cannabis.
- Identify the typical presenting issues for problematic cannabis use.
- Identify treatment options for dependent cannabis users.
- Recall effective techniques for working with cannabis users including harm reduction.
